EDUCATION

University of Missouri-Kansas City

*Bachelor's of Science in Computer Science
Vice President of the UMKC CS Club
Member of the UMKC Robotics Club*

GPA: 3.6
August 2024
August 2023 – May 2024
January 2022 – May 2024

Johnson County Community College

Associate of Science in Computer Information Systems

May 2021

EXPERIENCE

Tap Ins *Bartender* June 2026 - (Current)

AIKG, LLC *Bartender* May 2026 - (Current)

Tap Ins *Barback* November 2025 - June 2026

Dave & Buster's *Service Support* March 2025 - August 2025

UMKC *School of Science and Engineering Assistant* August 2023 - November 2024

7Brew *Brewista* December 2022 - August 2023

Cerner *Intern - Software Engineer* June 2017 - December 2019

- Worked as a team to provide interoperability between Cerner and clients via Spring Boot
- Independently resolved various bugs submitted by my team through Jira
- Contributed to sprint planning, scrum, and daily standups as an Agile team
- Reviewed teammates' code through Github
- Built unit tests for both my own and teammate's code using Mockito

PROJECTS

Temperatureboxd *Python*

Engineered a mini-application that bypasses Cloudflare's bot detection to scrape a Letterboxd user's movie ratings and compare them to each film's global average.

Portfolio Website *HTML, CSS, JavaScript*

Created a website with a responsive design for accessibility across a variety of devices.

Voronoi Diagram Generator *C, SDL2*

Built an SDL2-based application that generates and displays random Voronoi diagrams using a jump flooding algorithm with seed-independent time complexity.

Youtube Playlist Searcher *HTML, CSS, JavaScript*

Developed a web application that allows users to search their playlists via Google's API.

ESP32 WebServer *Arduino/C++, LittleFS*

Hosted my Youtube Playlist Searcher on an ESP32 chip as an asynchronous webserver, with LittleFS to manage its file hierarchy.

RuneLite Plugin *Java, Open Source*

Actively maintain a plugin on RuneLite's open-source plugin hub serving 6,000+ current users, while delivering new user-requested features.

SKILLS

Frameworks & Libraries: Spring Boot, SDL2, Mockito, Arduino **Tools:** Git/GitHub, Jira, LittleFS

Languages: Java, C++, C, HTML, CSS, JavaScript **Concepts:** Agile, Unit Testing, REST APIs
